Kimley»Horn

Expect More. Experience Better.

Capability Statement

For more than 35 years, Kimley-Horn has partnered with federal agencies nationwide to deliver mission-critical civil works, transportation, aviation, coastal, environmental, and infrastructure projects with confidence and reliability. Our multidisciplinary teams provide integrated planning, design, and program management across CONUS and OCONUS environments.

Core Competencies

Military Readiness & Installation Modernization

- Airfield Infrastructure
- Energy Resilience & Power
- Civil, Site & Landscape Design
- MEP & Structural Engineering
- Planning, Asset Management & Facility Support
- Secure, AT/FP & Mission Support Facilities
- Transportation, Mobility & Access
- Utility Infrastructure

Civil Works Infrastructure

- Flood & Coastal Storm Risk Management
- Ecosystem Restoration & Resilience
- Emergency Management & Disaster Recovery
- Engineering During Construction
- Hydrology & Hydraulics
- Hydraulic Structures
- Navigation, Ports & Dredging
- Water & Wastewater
- Water Resource Planning

Environmental Solutions

- HTRW Investigation & Engineering
- Natural & Cultural Resources
- PFAS & Emerging Contaminants
- Planning, Permitting & Compliance
- Site Investigation & Characterization

Facility & Project Types

- Administrative
- Airfields & Hangars
- Communications
- Secure & Critical Facilities
- Entry Control Points
- Family Housing & Barracks
- Medical
- Training & Operations
- Utilities Systems
- Waterfront Structures
- Industrial & Warehousing
