

The Highway 70 Corridor Commission is a united effort to create positive change along the Highway 70 Corridor and includes a coalition of government agencies tasked with attracting the resources necessary to transform U.S. 70 into a freeway from Interstate 40 in Wake County to the port at Morehead City and to promote the assets of Eastern N.C.: the roadways, ports, GTP, tourism, railroads, military. The website was established to introduce the vision of Super 70 Corridor Commission by sharing data, resources and mapping to keep you informed of the plans, objectives and activities of the Corridor Commission.

I invite you to browse the website, get acquainted with the projects and stay informed on the priorities and work of the Commission. I also encourage you to become involved as we attempt to expand and improve the assets and future of Eastern North Carolina.

Your comments, thoughts, ideas and questions are welcome. You may contact me direct by email at DurwoodUS70@gmail.com. Together we can improve quality of life and future of Eastern NC.

M. Durwood Stephenson

Director

Super 70 Corridor Commission
