

Kimley-Horn and Associates, Inc. was founded in 1967 in Raleigh, NC, by two very talented individuals, Bob Kimley and Bill Horn, both highly recognized and respected engineers. Their passion was to serve clients. Efficient, effective, and safe transportation systems were their primary objectives back then, and they created a culture that is still central to the firm. Today Kimley-Horn is a nationally recognized consulting firm with more than 80 offices that specializes in a wide array of professional services in the following practice areas:

- Airports/Aviation
- Environmental Services
- Forensic Engineering
- Intelligent Transportation Systems
- Land Development
- Transit
- Transportation
- Urban Planning/Landscape Architecture
- Water Resources
- Wireless Communications

Kimley-Horn's clients have access to a versatile staff of professional civil, transportation, and structural engineers; planners; landscape architects; and a comprehensive staff of environmental scientists. These professionals bring years of practical, outstanding skills, and dedication to providing exceptional client service. The result—great client solutions that result from the collective knowledge of our team.

Kimley-Horn and Associates, Inc. final awarded items and prices are listed to the right (Item descriptions follow below). The final awarded prices include the required .75% Industrial Funding Fee (IFF). Kimley-Horn and Associates, Inc. acknowledges the requirements of the Service Contract Act (SCA) and that the prices cited for the labor categories below are based on the U.S. Department of Labor Wage Determination Number(s) identified in the SCA matrix.

SCA Matrix		
SCA Eligible Contract Labor Category	SCA Equivalent Code Title	WD Number
Administrative Support	01020 Administrative Assistant	052401

The Service Contract Act (SCA) is applicable to this contract and it includes SCA applicable labor categories. The prices for the indicated SCA labor categories are based on the U.S. Department of Labor Wage Determination Number(s) identified in the matrix. The prices offered are based on the preponderance of where work is performed and should the contractor perform in an area with lower SCA rates, resulting in lower wages being paid, the task order prices will be discounted accordingly.

Labor Category Descriptions and Qualifications

Labor Titles	Education and Experience	License and Certifications	Roles and Responsibilities
Senior Professional II	Ph.D. and 6 years of experience Master's degree and 10 years of experience Bachelor's degree and 12 or more years of experience	P.E., AICP, RLA, or other similar professional registration	Professional engineer or planner who performs preliminary engineering. Responsible for an important segment of project management for planning, organizing and supervising personnel including subordinate project managers. May recommend facilities, personnel and funds to carry out programs needed to fulfill organizational objectives.
Senior Professional I	Master's degree and 5 years of experience Bachelor's degree and 6 or more years of experience	P.E., AICP, RLA, or other similar professional registration	Professional engineer or planner who performs preliminary engineering. Plans, schedules, conducts or coordinates detailed phases of a major project or a number of small projects that involve engineering, planning, and/or environmental services. May direct staff of professionals or technicians and develop and oversee key programs within specialty for region and firm. Works to make sure that the specialty area's goals are met. Supports business development at interviews and in preparation of proposals. Completely familiar with Kimley-Horn standards for quality control and compliance.
Professional II	Master's degree and 3 or more years of experience Bachelor's degree and 4 or more years of experience	P.E., AICP, RLA, or other similar professional registration	Professional engineer or planner who performs preliminary engineering. Plans, schedules, conducts or coordinates detailed phases of a major project of moderate scope that involve engineering, planning, and/or environmental services. Has broad knowledge of fundamentals in specialty area and good knowledge of principles and practices in related specialties. Can develop work plans including revision, acceleration or deceleration of a project. Selects procedures and checks complete reports and calculations. Familiar with QA/QC procedures and understands basic business practice and laws related to area of practice.
Professional I	Master's degree and 0 years of experience Bachelor's degree and 1 year of experience	Certified Intern (EIT or SIT)	Professional engineer or planner who performs preliminary engineering. Equivalent years of experience could be substituted. Assignments may include design development, tests of materials, systems or software design development, preparation of specifications, research investigations, report preparation and other activities of a limited scope requiring knowledge of design goals, standard principles and techniques for engineering, planning, and/or environmental services. May be responsible for project phases and be able to develop programs to address internal and/or external client needs. Assumes leadership role on projects or tasks. Responsible for reporting overall activity within group and resolving critical issues. May select or recommend procedures based on precedent.
