

Meet your goals and  
*maximize curb space*

## RE-IMAGINE YOUR CURB SPACE

The future of curb space is changing before our eyes. Where we once found parking spots, we are now seeing increased restaurant space, curb-side delivery space, and meaning landscapes that tell a story. With endless possibilities, you need a solution like **CurbClarity™**.

## SOLUTIONS

What differentiates **CurbClarity** from other curb space solutions is the ability to analyze goals within the context of an existing street or block. Where residential parking may be desired for a neighborhood street, it is less conducive for a commercial street where businesses are trying to maximize customer access. By aligning your needs and goals, **CurbClarity** can help improve the overall quality of life in your community.

Improve transparency and communication

Test and compare multiple scenarios

Improve quality of life outcomes for citizens

Increase economic performances and mobility

## ABOUT CURBCLARITY

Used in partnership with a Kimley-Horn professional, this custom analysis tool takes the guess work out of planning. It generates data-driven scenarios and visualizations based on your curb specifications. Four simple steps to achieve your goals:

1. Gather curb space and corridor data
2. Prioritize curb functions
3. Evaluation multiple scenarios
4. Leverage insights to create desired outcomes
